EDUCATION

University of Central Punjab <i>Bachelor of Science in Computer Science</i>	2023 – 2027 Lahore
• Coursework: Data Structures, Algorithms, Databases, Object Oriented Programming, Advanced Web Development	
Kips College <i>FSc. Pre-Engineering</i>	2020 – 2022 Gujranwala

EXPERIENCE

Frontend Intern <u>Certificate</u> <i>As-Digitech</i>	Aug 2025 – Dec 2025 Lahore
- Designed and developed modern UI prototypes and admin dashboards using React.js, Tailwind CSS, and ShadCN UI components. - Built responsive and reusable frontend components with scalable component architecture and clean UI practices. - Implemented Zustand state management, REST API integration, and asynchronous data fetching for dynamic dashboard functionality. - Worked on SPA routing, responsive layouts, frontend optimization, and production-ready interface development. - Collaborated with developers and designers to improve user experience and maintainable frontend workflows.	

PROJECTS

Modern Internship Management Frontend | *React.js, TypeScript, Vite, Tailwind CSS* | [Github Repo](#)

- Developed a responsive frontend application using React.js, TypeScript, and component-based architecture with modern UI design principles.
- Implemented SPA navigation using React Router DOM and built reusable UI components using Radix UI and Tailwind CSS.
- Integrated Axios, TanStack React Query, Zustand, and Recharts for API handling, state management, caching, and dashboard visualization.
- Optimized frontend performance and maintainability using modular architecture, reusable hooks, and utility-first styling.

Banking Management API System | *Node.js, Express.js, REST APIs, JavaScript*

- Developed a backend banking management system using Node.js and Express.js for handling deposits, withdrawals, and account operations.
- Built RESTful APIs, custom middleware, and modular backend architecture for request handling and transaction management.
- Designed scalable folder structure with routes, controllers, middleware, and utility functions using Express.js and Nodemon.

SKILLS

Languages: JavaScript, Typescript, Python, C++

Frameworks: React.js, Node.js, Express.js

Databases: MongoDB, MySQL
